APPLICATION NUMBER: 16/06224/LBA

ADDRESS: Bath Spa Railway Station

PROPOSAL: Installation of two staff information displays

CASE OFFICER: Laura Batham

DATE: 15 January 2017

COMMENT: OBJECTION

\*\*\*\*\*

Bath Heritage Watchdog objects to this application in its current format.

The ability to relay information to passengers quickly from the platform is understood and appreciated. The reason for our objection is the addition of yet more clutter and wiring to a station which is already suffering considerably from such items. No justification has been given for the proposed location of each screen and whether other locations have been considered. Has the positioning on any of the ironwork stanchions been considered whereby the wiring could be fed through existing conduits?

If the locations proposed are essential then we consider that at least one item of clutter – whether that be advertising or something else – should be removed from each platform as a means of offsetting the harm.
