APPLICATION NUMBER: 17/00462/AR

ADDRESS: Between Lidl and Waterside Court, LBR

PROPOSAL: Display of 1 No totem Sign

CASE OFFICER: Laura Batham

DATE: 28 May 2017

COMMENT: SUPPORT

Watchdog held back from commenting because the type of lighting, whether uplighter or downlighter was preferred, would depend on the opinion of the Ecologist.

Having now seen the report from the Ecologist that there is no objection to the uplighting proposed, we are now in a position to support this application.

Our assessment is that the height of the totem and the position it is located indicates that the height of the totem does not exceed the roof height of the listed building, but if you wish to Condition that relationship to be sure then we would be happy with that.

The only other features we would like to see Conditioned is that the illumination should be switched off (ideally by timeswitch) when the last of the retail units closes for business at night.
