Bath Heritage Watchdog supports this application.

*When determining all applications for new shopfronts and signage we ask that the following guidelines are observed.*

*The context, or general setting, of Bath should be understood, respected and reflected in any proposed work to shopfronts.*

*Design, materials and workmanship should be of the highest quality.*

*Any proposed or altered shopfront should be historically credible.*

*House styles which do not meet the requirements of style, lettering, materials and signs are not acceptable. Multiples should be required to adapt their proposals to the special conditions of the city.*

*Standard designs of any sort are not acceptable. They should be specifically designed for their context.*

We are pleased to see an applicant prepared to use traditional materials and methods and we fully support this approach. We hope this will encourage others to follow suit.
