contact@bathheritagewatchdog.org

APPLICATION NUMBER: 18/00135/FUL

ADDRESS: Marks & Spencer, 16-18 Stall Street

PROPOSAL: External alterations to shopfront including the installation of 2no ATMs, display of advertisements and associated works

CASE OFFICER: Alice Barnes

DATE: 17<sup>th</sup> March 2018

COMMENT: STRONG OBJECTION - REOBJECTION

\*\*\*\*\*

Bath Heritage Watchdog notes the revised plans submitted to this application. We maintain our position as an OBJECTION.

The main difference appears to be the removal of the advertising proposals from the plans. However we have also spotted that the extent of glazing to the west elevation (New Orchard Street) has actually been extended further.

We are extremely disappointed that the applicants have chosen to continue with the proposed alterations to this elevation in the face of clear and valid opposition. We would encourage them to reconsider this position.

We also note that work to subdivide the main M&S store from this part of the building has regrettably commenced despite permission not being granted for this application.
