APPLICATION NUMBER: 19/00115/REG13

ADDRESS: Street Record, The Vineyards

PROPOSAL: Repair and localised strengthening of retaining masonry wall, elevated pavement and associated railings fronting The Vineyards on the west side of the A4 extending from the Junction of Lansdown Road with George Street to the junction of Guinea Lane with The Paragon

CASE OFFICER: Adrian Neilson

DATE: 15 February 2019

COMMENT: SUPPORT

Bath Heritage Watchdog supports this application.

It is regrettable that this wall and railings has been allowed to deteriorate to the current condition. No doubt inappropriate use of cement mortar and vegetation growth has added to this deterioration. It is a classic example of lack of regular maintenance resulting in a much larger, and no doubt more expensive, schedule of works.

We are pleased to see the very detailed and comprehensive conservation assessment of the wall and await a considerable enhancement to the historic environment.
